

Quality unlocks greater value

The impact of quality on spend and outcomes

Our validated approach

Our quality engine is powered by

100
novel quality models

...and has delivered

1.1M
provider referrals

...to members across

130+
employers

Grand Rounds Health top-ranked primary care physicians provided

“significantly higher quality care for all of the metrics we evaluated.”

— Prof. Niteesh K. Choudhry, Harvard Medical School

Healthier members

Members treated by Grand Rounds Health-endorsed physicians are*:

44% more likely to receive appropriate breast cancer screenings

39% more likely to receive appropriate colorectal cancer screenings

30% less likely to receive high-dose opioids

33% less likely to require repeat spine surgeries

12% less likely to receive inappropriate spine imaging

Lower costs

\$2,287
two-year savings per referral

Savings are driven by more effective and efficient care.

↓ **\$439** outpatient hospital spend

↓ **\$366** inpatient hospital spend

↓ **\$170** emergency room spend

...in the first year alone.

*Compared to members treated by physicians in the bottom decile of quality.
